SKILLANSH GROWTH CIRCLE - SAFE AI PROMPTS FOR ACCOUNTANTS

Mentor: Girish Shelar | WhatsApp: +91 9922045007 | skillansh.com

GOLDEN DATA-PRIVACY RULE (DPDP ACT 2023 & ETHICS):

Never paste real Client Names, PAN, GSTIN, or Bank Account Numbers into public AI tools.
Always use Masked Variables like [CLIENT_A], [GSTIN_XXXX], and [AMOUNT_X] as shown below.

1. Prompt for Cleaning Invoice Numbers in Power Query (M-Code)

"I am using Excel Power Query. I have two tables: 'Books_Purchase' and 'GSTR_2B'. In 'Books_Purchase', invoice numbers look like 'INV/2026-27/0045', while in 'GSTR_2B' they look like 'INV-2026-27-45'. Write a clean Power Query M-code custom column formula that strips special characters ('/', '-', spaces) and leading zeros so both tables match."

2. Prompt for Drafting GST Section 73 / DRC-01A Difference Reply (3B vs 2B)

"Act as an Indian GST compliance specialist. Draft a structured reply letter to the Proper Officer regarding a difference in Input Tax Credit (ITC) between GSTR-3B and GSTR-2B for FY [FY_YEAR] involving [AMOUNT_X]. Use placeholders [TAXPAYER_NAME] and [GSTIN_NUMBER]. Include a reconciliation table structure showing: (a) ITC in 3B, (b) ITC as per 2B, (c) Previous period invoices claimed under Sec 16(4), (d) Reversals."

3. Prompt for Power BI DAX Measure (Debtors & MSME 45-Day Ageing)

"Write a clean Power BI DAX measure to calculate 'Outstanding Receivables for 31-45 Days' and '>45 Days MSME Section 43B(h) Risk' using an 'Invoices' table with columns: [Invoice_Date], [Outstanding_Amount], [MSME_Status], and a dynamic Date Slicer table."

4. Prompt for Categorizing Messy Bank Statement Narrations in Excel

"Write an Excel formula using XLOOKUP / SEARCH that reads a Bank Narration in cell C2 (containing strings like 'NEFT/UPI/SWIGGY', 'ACH/BAJAJ FINANCE', 'IMPS/MSEDCL') and automatically assigns the right Accounting Ledger Head from a Keyword_Map table."
